Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 2, 4, 5 and 20 rejected under 35 U.S.C. 102(b) as being anticipated by Hill, U.S. 3,850,238.

Hill discloses an elastomeric seat (27) supported by a movable body (25), said seat adapted to receive a member (21) thereon to obstruct the tubular (col. 2, lines 39-46) for pressure build-up; said seat assembly movable between a first position, where the tubular may be obstructed by said member, and a second position, where flow past said seat and member can occur (col. 3, lines 30-39); and a hydraulic movement-

regulating device (col. 3, lines 46-50) operable on said seat assembly to selectively regulate the rate of movement from said first to said second position.
